**Meet: Jacques Ice**

**Location:** Westerlo-Oevel, Belgium

**About:**

Jacques Ice is a 100% independent family business, located in Westerlo-Oevel.

The company is specialised in the development and production of ice cream, sorbet, fruit ice and water ice. Driven by innovation and continuous product development JACQUES ICE offers a wide range of qualitative products such as cones, push ups, sticks, squeezers, cups and ice logs.

**Description job**

Carrying out repetitive work on the production line, producing ice cream products.

## What can I expect?

It is a seasonal job, from January until August. People work in dayshift or in nightshift. In the dayshift you change weekly shift: 7:00-15:00 and 15:00 -23:00. Nightshift works always in the night. There is a full shift from 23:00-07:00 and a 'aflosshift' from 01:00 – 05:00. In each shift Prisma works has a coördinator who is responsible for the Prisma – workers. Daily the coördinator divides the employees over the workplaces. Jacques IJs is a professional food company, which means that they have some strict hygiene rules: like washing hands, wearing work clothes, cover hair and beard. In the production area the icecream isn't frozen. This means that it is not cold inside the production hall. You work with colleagues from different nationalities. Production leaders are mainly Belgium. For this reason it is necessary to be able to communicate in English.

**“Jacques Ice is a professional, committed and well-organized company. There is a very pleasant atmosphere here. There is a very pleasant atmosphere in this company.”**
